To the Chief Commr. for orders

The Siddlagatta tank relief work is, as C.C says, no longer necessary as a Relief work, nor is it affording relief to the distressed, but there is still a little work left to be done, & it would be a pity not to finish it. It is a matter of 200 or 300 rupees. & I understand Col Johnson can allot that from his irrigation budget. I propose telling M.S. Krishnaiengar to close the work as a Relief work forthwith. & to apply to the Supdg Engr for irrigation for requisite funds to enable him to complete that remains of the work.

When this is done the only relief remaining in Kolar will be that given in the Kolar & Chikballapur dispensaries where 5 & 7 in-patients are maintained from allotments of famine funds, ~~if the DC is told to admit no new cases into the above~~ all famine relief will speedily close in the District.

The enclosed note from the DC in answer to one I sent him shows that

these few sick paupers can be maintained from M. H. Funds. the allotment may therefore be with drawn & the operations of the Famine Dept will close forthwith _

24/11

They may be closed at once.

24/11

† I have kept the rest in the file.

This application of D.C. Kolar cannot be complied with. He seems to have been carrying on these works from Relief funds after they were stopped as relief works. If so he had no right to do it.

The continuance of relief works in Kolar was settled in Mr. Elliott's minute order on it some time in March '78. Thagaraja Mudali will easily get the orders which please send. I do not think any of these works were included as Relief works in any weekly report from Kolar that I now saw — I would like to see a Kolar weekly report of say a fortnight or a month after Mr. Elliott's minute.

Besides there was just as explicit an order stopping Relief Expts in Kolar issued in form of a docket on (I think) 24th Novr 78 as the final order of 13 Decr. The order of 13 Dec stops Expr on Relief Works. but the D.C. says these works had been originally sanctioned as relief works but continued at ordinary [illegible] the order of 13 Dec would not [illegible] apply. Please let me have the orders alluded to sharp.
